

Copy of VADOC COVID-19 Personal Protective Equipment (PPE) Daily Usage Inventory

NOTE 4/23/2020 - New questions have been added about security level, medical status, offender testing status, and bed use at facility. The new questions begin at Question 53.

NOTE 4/14/2020 - Two new questions have been added about the number of offenders with COVID-19 who have died at your location since your report yesterday (new Question 46) and how many staff with COVID-19 at your location who have died (new Question 52).

As we continue the daily inventory process for PPE (Personal Protection Equipment) at all of our locations, please note the following refinements to the reporting process:

- **Count of items**—the count for both items used and items on hand continues for individual items using this approach:
 - **On-hand**—count the number of unopened boxes. Multiply the number of unopened boxes x number of each items in each box for your total
 - **Used**—as soon as you have used one item from a box, consider the entire box as “used.” Do not count loose items in an opened box to avoid possible contamination. Multiply the number of opened boxes x number of each items in each box for your total.
- **Size of items**—anticipate that the inventory will require reporting by sizes for gowns and gloves. Refer to the PDF version of the current survey for details.
- **Reporting assistance**—use these contacts if difficulty is experienced in making your submission:
 - **Technical issues with SurveyMonkey**—use this shared mailbox monitored by the Research Unit: research@vadoc.virginia.gov
 - **Procedural issues**—refer to your supervisor and up your chain to your region; note that 24-hour assistance can be initiated by OLU: docolu@vadoc.virginia.gov

Complete this inventory by 11:00am each day.

It is critical that Medical is prepared to submit the information for the preceding time since your facility's report yesterday for the following questions by 11:00am: 40 -46; 52 - 55; 61 - 67

Enter all usage and inventory information as of 9:00am for the preceding time since your report yesterday.

Report information for your specific location. If your location also holds supplies for the Regional Stockpiles, you will need to report the information for the Regional Stockpiles at the end of this inventory. Do NOT combine the information

from your location with the regional stockpile supplies you are storing.

* 77. In the past 24 hours, how many employees at your location have been confirmed to have COVID-19?

* 78. What is the cumulative total number of employees at your location who have been confirmed to have COVID-19?

* 79. How many of the employees at your location with confirmed COVID-19 are considered to be an Active COVID-19 Case?

* 80. How many of the employees at your location with confirmed COVID-19 have recovered/left the agency?

* 81. How many of the employees at your location with confirmed COVID-19 have died?

82. Is today a normal weekday or a weekend/holiday

Copy of VADOC COVID-19 Personal Protective Equipment (PPE) Daily Usage Inventory

* 83. If **Inactive** means "No active positive case" and **Active** means "Have active positive case" for OFFENDERS, what is your current ICS (Incident Command Structure) status?

- Inactive
- Active

* 84. Using the following definitions, please select the current status of your Medical Services:
Compromised - using PPE hot, decreasing medical for non-essential functions, implementing KOP
Critical - only responding to emergencies
NA - no medical facility on site

* 85. Using the following definitions, please select the current level of preventive security precautions in place at your facility:
Modified Lockdown - based on security needs, a facility has activated procedures to allow access to the facility through a reduced number of controlled entrances
Lockdown - based on security needs, a facility has activated procedures to control entry to the facility to authorized personnel only
NA - Not applicable

* 86. How many offenders are currently in the Red Zone at your location?

* 87. How many offenders are currently in the Yellow Zone at your location?

* 88. Please state the total number of **COMPLETED COVID-19 test RESULTS** received at your facility in the past 24 hours (includes tests with Positive, Negative, Inconclusive or Invalid, and Rejected results, but NOT Pending).

* 89. Please state the total number of **POSITIVE COVID-19 results** in the past 24 hours at your facility:

* 90. Please state the total number of **NEGATIVE COVID-19 test results** at your facility in the past 24 hours:

* 91. Please state the total number of **COVID-19 tests that have come back with REJECTED, INCONCLUSIVE, or INVALID results** at your facility in the past 24 hours:

* 92. Please state the **total number of PENDING COVID-19 tests** at your facility since 12:00 noon yesterday :

* 93. Please state the **TOTAL** number of persons under investigation for COVID-19 currently at your facility (defined as symptomatic and pending results of testing; offender should be in isolation):

* 94. Please state the **TOTAL** number of persons at your facility under investigation for COVID-19 that were transferred to hospital in the past 24 hours:

* 95. Please state the **TOTAL** number of persons under investigation for COVID-19 at your facility released to the public since 12:00 noon yesterday:

* 96. Please state the number of offenders who have tested negative for COVID-19 but continue to present the symptoms of COVID-19 and are clinically being treated for COVID-19:

* 97. Please state the number of Infirmary beds currently in use at your facility:

* 98. Please state the number of Assisted Living beds currently in use at your facility:

* 99. Please state the number of MOU beds currently in use at your facility:

* 100. Please state the total number of respiratory droplet isolation cell beds currently in use at your facility (a 4 walled solid door cell that is used during COVID-19 investigations):

* 101. Please state the number of negative pressure beds currently in use at your facility (a 4 walled solid door cell that is used during COVID-19 investigations):

* 102. Please state the **TOTAL** number of offenders who were pending test results when released that have since had a positive test result returned.
